Business and Professional Women

Founded in 1922

Edition No.0023

March 2024

## WOMEN'S HISTORY MONTH

Dear BPW members,

In this month of recognition for so many outstanding women, I invite you to, either click on this link or cut and paste it to discover the scope of their influence.

*(It is beyond my control if for 1/2 minute you may be confronted with a political advert, but very quickly this link will find its true raison d'être.)*

<https://www.history.com/topics/holidays/womens-history-month>

**The hand that  
rocks the cradle,  
rules the world!**

### World Outstanding Women 2023

## UP-TO-DATE WITH AI

Without any doubt,

**AI est à la mode**

*(Artificial Intelligence)*

and whether or not we wish to embrace it, at least, as Business and Professional Women, we must be aware of what has become its daily applications. One of the most positive aspects of AI is to help you with your writing, either to send a difficult letter such as condolences regarding someone you hardly knew, or argue your legitimate case near the Department of Tax and Collections, or applying for a job ... or making a BPW presentation?!

It also answers magically to any question you may have such as: 'How to make apricot jam?' - In less than 10 seconds it will give you—what container to use, the preparation of the fruits, details of all the ingredients. cooking time, etc...

It is **not** an application that you should download. The best is to use it directly from your browser—It is absolutely free, you only have to register your e-mail address.

Go to:

**ChatGPT**

<https://chat.openai.com/auth/login>

**and explore!**
